

National Precast Strategic Priorities

STRATEGIC PLAN 2023 - 2027

ONE VOICE FOR THE AUSTRALIAN
PRECAST INDUSTRY

VISION

A thriving precast concrete industry that engages in its future and contributes to a sustainable built and civil environment.

MISSION

To be the Australian peak industry body for prefabricated concrete, to enhance the industry and to create opportunities for our members.

VALUES

Leadership through unity and initiative...*Together we achieve change!*

Knowledge through expertise and learning...*Share, learn and improve!*

Service through mutual support and respect...*Support the organisation that supports you!*

Excellence through innovation, quality, safety and efficiency...*Strive for sustainable best practice with continuous improvement!*

Passion through drive and responsibility...*Get involved while demonstrating good corporate citizenship!*

STRATEGIC PILLARS

National Precast's is focused on delivering on it's mission through:

Advocacy – enhancing the industry.

Growth – creating opportunities for our members.

Education – driving continuous improvement.

2027 OBJECTIVES

Advocacy – enhance the industry

- Strong relationships with government and major procurement bodies to ensure concrete assets contribute to a sustainable built environment.
- Selection of Master Precasters by major procurement bodies who recognise the value that Master Precaster accreditation delivers across time, cost and quality.
- Fit-for-purpose relevant codes and standards, via impactful National Precast advocacy.

Growth – create opportunities for our members

- Industry-wide recognition of the value of precast concrete, with major procurement bodies engaging with National Precast on project opportunities.
- Events that are sought after and well attended, allowing industry members to build relationships, collaborate and identify opportunities.
- Recognition of the value of National Precast membership with involvement by all major precast manufacturers and their suppliers to provide reciprocal business opportunities.

Education – drive continuous improvement

- Highly regarded and in-demand educational resources that inform and upskill both members and the broader industry.
- Formal Australia-wide precast worker training.
- Suite of practical and tangible tools for precast members, providing employment, legal and technical support to allow continuous improvement.
- Proactive precast sector knowledge hubs that entice involvement.
